WORK EXPERIENCE

Full Stack Software Developer | Magento CMS Administrator

Oct. 2019 – Present

Twenty 7 Group LLC

Las Vegas, NV

- Conceptualized and developed a custom MERN stack (MongoDB, Express.js, React, Node.js) application for invoice management, significantly improving the sales team's efficiency in generating and managing invoices with enhanced aesthetics and functionality.
- Maintained the company's online store using Magento CMS v2.3, ensuring all products and SKU details were up-to-date and effectively presented, leading to better SEO performance and enhanced user experience.
- Demonstrated strong leadership skills by successfully supervising the warehouse team and operations, ensuring seamless incoming and outgoing shipments through effective coordination and organization.

Contract Software Developer - MERN Stack

Feb. 2024 – Present

TrackHubs LLC

Remote

- Maintaining and developing features for a comprehensive invoice management application using the MERN stack (MongoDB, Express.js, React, Node.js), enhancing operational efficiency and data handling for business clients.
- Contributing to the software development lifecycle, from requirements gathering and system design to implementation and maintenance, ensuring robust, scalable solutions within a dynamic team environment.

Magento CMS Administrator | E-Commerce Product Manager

Nov. 2016 – May 2019

US Bext Ltd

Las Vegas, NV

- Spearheaded the Magento CMS platform to optimize and manage the company's online product catalog and inventory, ensuring a seamless e-commerce experience.
- Initiated and led the successful integration of Fulfillment by Amazon (FBA), growing it to account for nearly half of the company's revenue stream by implementing strategic inventory and listing management practices.
- Directed warehouse operations, including staff supervision, order processing, and inventory control, to enhance efficiency and accuracy in fulfillment.

EDUCATION

Massachusetts Institute of Technology

2022

Professional Certificate in Full Stack Development

- Attained a Professional Certificate from a globally recognized institution, mastering the MERN Stack for advanced full-stack development.
- Completed projects that honed skills in developing scalable, efficient software solutions, aligning with the latest industry standards.
